Whitefield Affairs.

Sir.—The 3rd of April, 1930, was a red letter day in the history of the Anglo-Indian Colony of Whitefield, when the Mysore State's Dewan, Sir Mirza Mohamed Ismail visited the colony in order to arrive at a decision regarding the establishment of a Panchayat and to discuss matters about the long deferred water supply schemes.

A very able address was read to the Dewan by the President of the Anglo-Indian Association, and his reply has already been printed in several newspapers.

Sir Mirza Ismail has always shown a very sympathetic spirit towards this colony and to Anglo-Indians in general.

The installation of the electric lights in Whitefield is one proof of his interest, while his assurance in his speech, that he has a warm interest in the welfare of the colony and would do all in his power to make it a really prosperous settlement are words that can be relied on.

The question of the water supply scheme was discussed, and while the Government thought that the two schemes already put forward, viz. the restoration of Pattandur Tank and the pumping of water from Varthur, were too costly, it was decided to send the well-boring expert to select a spot for a tube well, within the colony. The idea is not a bad one; but it has been forgotten that a bore well within the colony will only serve 15 houses, whereas there are 45 houses, situated outside the colony; these residents are also the beneficiaries of the Trust Fund and have a claim as well as a voice in the administration of this Trust money. It would therefore be unwise to lay out the Trust money for the benefit of 15 residents only.

There is a way out of the difficulty if it has been decided to use tube wells. The Mysore Government have, at the cost of Rs. 1,000 put in a pucca stone well on the borders of the Pattandur Tank. This well is now dry, because the Pattandur Tank is itself dry. I suggest that a bore should be put into this well and the water pumped up to the billock (the highest point) nearby, into a cistern or reservoir, and from thence a 3 inch pipe (main) be laid running along the Government road north and south. These pipes may be tapped by the colonists, by a one inch pipe to supply their houses with water. If this is introduced, the use of carts and barrels must automatically disappear, and every colonist will be in a position to tap the main 3 inch pipe and obtain his water supply. (An excellent suggestion. The only question that occurs to me is whether the supply will be sufficient. It is possible that "rationing" of some sort might be necessary in the "dry" season.) (R.J.)

The introduction of a Panchayat under Government control will be a great blessing to the colony, and I'm sure will bring peace within the colony, as the closing down of the Anglo-Indian Association must naturally follow. This Association has always been the great trouble in Whitefield, being a 'one man show' clothed in a little brief authority with no appeal, but the Court fanned the flames of megalomania which made Heaven's angels weep.

The Panchayat will be the channel for the administration of the Trust Fund, and possessing all the powers of control, etc., under the Mysore Government, which will be always open to hear appeals.

We have sung the Requiem mass of The Anglo-Indian Association. R.I.P. God bless the Dewan, Sir Mirza Ismail.

Mirza Mahomed Ismael, B.A.,
Amin-ul-Mulk,
Dewan of Mysore.

Sir,

On this, the first occasion of your visit to White-field, we, the Members of the Anglo-Indian and Domiciled European Association, of Mysore and Coorg, extend to you a humble but hearty welcome to our Settlement, and desire to express our very sincere appreciation of the honour you are doing us by your presence here today in response to our invitation.

We thank you most warmly for all the consideration you have shown us in the past, and your sympathetic attitude towards all our requests, and we recognise in this visit of yours, a further proof of your kindly interest in our affairs, and of your sympathy and good will towards us.

✓ While thanking you for favours conferred we would particularly mention the supply of Electric lighting, for which alone you will be ever gratefully remembered by every member of the Settlement.

(1) We understand that the question of introducing the Panchayat system into the Settlement is now under consideration and while we are not, at present, in a position to offer any opinion as to how the Settlement will be affected by it, we
L. S. & Co. can only hope that it will not alter the distinctive character of the Settlement, as an Anglo-Indian Settlement and prove adverse to the interests of the Settlers.

(2) We now desire respectfully to invite your attention
L. S. & Co. to some of our more pressing needs. More than anything else which is needed to make this a prosperous settlement is a good water supply. We understand that a scheme is now before your Government for supplying this long felt want and we feel sure that receiving your approval and support, it will soon be sanctioned and become an accomplished fact.

(3) Our next need is a school, and we respectfully solicit your favourable consideration and help to enable us

to re-establish a school here for the benefit of the children of the Settlement. In connection with the above points we would humbly beg to draw your attention to a petition already before you to formally recognise this Association as the legal (1) successor of the Body which went into voluntary liquidation in Bangalore..... By according us this recognition, the Government of Mysore will remove a legal technical objection, and immediately place us in possession of our inheritance, thereby enabling us to carry out many improvements for the benefit of the Settlers at a minimum of taxation.

In conclusion we beg to be to be allowed to express our unqualified admiration of the manner in which the Government of the State of Mysore is administered, and to assure you of our profound loyalty and devotion to its Beneficent Ruler, among whose subjects we are proud to include ourselves.

And now, wishing you a very successful career in the high office, you so worthily fill, we fervently hope that all your efforts for the betterment of the people may be crowned with success.

We beg to subscribe ourselves

Your most humble and obedient servants,

**Dewan's Reply to the Address presented by
the Anglo-Indian and Domiciled European
Association at Whitefield.**

3rd April 1930.

GENTLEMEN,—

IN your address you have spoken of your loyalty to His HIGHNESS THE MAHARAJA, and of your pride in being his subjects. These phrases of yours are no formality: they are a true expression of the attitude, and the character, of your community. I am well aware of your devotion to His Highness and of your complete and positive loyalty to his Government, and I am thinking not merely of Whitefield but also of Bangalore and the other parts of the State. On behalf of His Highness and the Government, I would make a response of similar sincerity and earnestness. In recent years, it has become imperatively necessary that you should yourselves decide whether you should be strangers within the gates or in the fullest and gladdest sense citizens, and you have deliberately chosen citizenship. This is clear from all you say and do, and we greatly rejoice in it. First, because you are a strength to the country. It is not, I hope, an impertinence to speak of the intelligence, the discipline and the energy of this community. Neither Mysore nor any other part of India can afford to let these qualities rust unused. We seek your keen interest and co-operation in all public affairs.

But it is recognised also that this laying hold upon Indian citizenship and the indentifying of the community with the aspirations and endeavours of the country is far the best policy for the community itself. India's future is well worth sharing, particularly for those who strenuously help in the making of it. Any other policy would mean, and has often meant, frustration and unhappiness. It is true of this community, as of all others, that self-realisation can come only through the freest and most candid intercourse with the rest, and a deliberate policy of finding and emphasising unity rather than differences. This is a policy easy to speak of and very difficult for any one to pursue, because the differences lie on the surface and need no discovering, while the unity is deep within, like every source of power, and can only be understood by good-will, and patience, and real self-sacrificing patriotism. When found, it comforts and inspires the person and the race.

Coming to matters of particular interest to this settlement, I shall be very glad to discuss them with you presently. I hope you will agree that this will be a more satisfactory method of disposing of them than by anything I could say in the course of a speech. I wish to assure you of my warm interest in your welfare, and I shall be happy to do whatever lies in my power to make this a really prosperous settlement.

In conclusion, may I ask you to accept my cordial thanks for the kind words in which you have referred to me and my work?

the Sub Division Officer, Bangalore, was requested to take immediate
action and submit proposals. The Revenue Survey Superintendent who
was addressed in the matter has written enquiring whether sanction
of Government has been obtained. In view of this, I request you
to kindly move the Government and address the Survey Department for
taking further action. The Village Panchayet can be constituted into
the area only after the Survey work is over.
